

fridgestop.

A simple
device that
every hotel
needs.

Fridgestop prevents mini fridges from slipping and sliding in their cabinets. A simple, intuitive solution for a big problem.

That's it.

Extendable inner cylinder tightly secures mini fridge in cabinet

Pivoting head allows for easy installation in tight spaces

Rubber feet grip surfaces while preventing damage

Lightweight and durable aluminum cylinder

Four standard sizes with custom options available

fridgestop.

Prevent damage, unnecessary repairs and on-going adjustments to your in-suite Mini Fridges.

Available in four standard sizes, with custom sizing available.
